Robin,

ESAT is editing the Pace EDDs, adding the validation qualifiers. Once done, they will save the files to the J:/....T4 validated/EDD file folder.

The Test America EDD will require the same modification as the previous set.....all data qualified "R" due to lack of confirmation of positive results. I tried using the XML Notepad 2007 editor to examine a SEDD edd and did not find a place holder the a "validation qualifier". There is one for lab qualifier but none for validation qualifier. I will move these files.

Fred, just checking to see when you might have the next set of EDDs ready?

Pace 5058051

Pace 5058185

TestAm 480-15712-1

TestAm 480-15814-1

Also, I just realized the SEDD file that was sent for TestAm 480-15770 was incorrectly called 480-15570. I looked the file and the correct samples are shown, but, the 15570 is still incorrect.
